“..edit processing means configured to replace an edit portion of stored original data with said new data by defining an edit range with reference to said new data, selecting an edit field with reference to said frame type so as to initiate said edit data boundary, write said new data to said storage device, and select an edit field again before completeing said process of writing said new data with reference to said frame type data so as to complete the edit on a data boundary.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
